- In-office histology lab trends
- Detailed analysis of the pharmacogenomic market
- Digital pathology market size and trends
- Medicare and managed care reimbursement stats
- Projections for the anatomic pathology market, 2011-2015
- Profiles of 16 biggest pathology labs

### Condensed Table of Contents

**1: Anatomic Pathology Market Size & Structure**
- Anatomic Pathology Market Size, 2006-2012
- Top 10 Histopathology Labs in the United States
- Percentage Market Share by Subspecialty in the Non-Hospital Patient Pathology Market, 2012

**2: Medicare Claims Trends**
- Part B Expenditures for 35 Key Pathology Codes, 2006-2011
- Part B Claims Volume for 35 Key Pathology Codes, 2006-2011

**3: The Cervical Center Screening Market**
- Lab Revenue for Cervical Cancer Screening, 2000-2012
- Market Share by Lab Company, 2012
- Market Share for Pap Test Vendors, 2012
- Market Share for HPV Test Vendors, 2012

**4: Pharmacogenomics**
- Part B Carrier Spending on Pharmacogenomic Testing, 2006-2011
- Cancer Drug vs. PGx Test Cost Comparisons
- U.S. Chemotherapy and Targeted Cancer Drug Sales, 2005-2012

**5: Digital Pathology**
- Adoption Trends in Digital Pathology
- Market Size and Growth for Digital Pathology, 2005-2012

**6: In-Office Pathology Labs**
- Number of In-Office Pathology Labs Certifications in 2012
- Top 25 Urology Groups with In-Office Pathology Labs
- Top 25 Gastroenterology Groups with In-Office Pathology Labs
- Top 10 Dermatology Groups with In-Office Pathology Labs

**7: Reimbursement Trends**
- Medicare Reimbursement for CPT 88305
- MDx Test Price Comparison

**8: Mergers & Acquisitions**
- Pathology Lab Valuation History, 1996-2013
- Lab Valuations Based on EBITDA
- Quest and LabCorp Spending on Acquisitions

**9: Outlook for Anatomic Pathology**
- Anatomic Pathology Market Size, 2010-2015
- Biggest Challenge Facing Pathology Groups

**Appendix:** Pathology Lab Company Profiles: Agendia, American Pathology Partners, Aurora Diagnostics, Bio-Reference Labs, Bostwick Laboratories, Boyce & Bynum Pathology Labs, Clariant Inc., Genomic Health, Genoptix, LabCorp, Miraca Life Sciences, Myriad Genetics, NeoGeonomics, PathGroup, Quest Diagnostics, Response Genetics

The Laboratory Economics Difference

The business of pathology is changing fast. Ongoing consolidation, pharmacogenomics, new managed care contracting efforts, electronic medical records and consumer healthcare are all reshaping how pathology groups and labs do business. Constant change means constant decision-making. Choosing the best path to the future depends on two critical factors: quality of information and insightful analysis. The U.S. Anatomic Pathology Market: Forecast & Trends 2013 can help you make educated decisions. You’ll get an insider’s market expertise combined with the objectivity of an outsider for the best possible insight into the pathology market’s competitive dynamics.

Our Research Methodology

The U.S. Anatomic Pathology Market: Forecast & Trends 2013 includes data gathered the old-fashioned way—through primary research. The estimates and market analysis in this report have been built from the ground up, not by regurgitating stale numbers from old reports. Proprietary surveys and extensive interviews with pathology groups, commercial lab executives, hospital lab directors, and respected consultants form the basis of this report. And no stone has been left unturned in our examination of the CLIA database, Medicare test volume and expenditure reports, Securities & Exchange Commission filings and company annual reports.

About the Author

Jondavid Klipp is president and publisher of Laboratory Economics LLC, an independent market research firm focused on the business of laboratory medicine. Prior to founding Laboratory Economics in April 2006, Mr. Klipp was managing editor at Washington G-2 Reports. During his seven-year employment with G-2, he was editor of Laboratory Industry Report and Diagnostic Testing & Technology Report. Mr. Klipp also authored several landmark research reports, including G-2’s Lab Industry Strategic Outlook 2005, U.S. Laboratory Reference Testing: Profile and Pricing Trends and The Laboratory Market Leaders Report. Prior to joining G-2, Mr. Klipp was an HMO analyst at Corporate Research Group in New Rochelle, New York, and a senior writer in the equity research department at Dean Witter in New York City.
